Coin Laundry

IHC Series Washer-Extractor

Simplifying Ownership

PROFIT POTENTIAL. IPSO's Micro-20 microprocessor control translates into 40 to 50% in water savings vs. electromechanical washers. Multi-level vend pricing increases your store's overall potential profitability, while audit and diagnostic capabilities aid in management.

STAY CONNECTED. The Sigma control option takes your operation to the next level in programming. Sigma's networking enables owners to monitor, program and perform diagnostics from off-site.

FREESTANDING. Our HC line of high-speed washer-extractors requires no special pad or mounting hardware. This flexibility makes these machines the ideal replacements for owners' existing equipment and reduces installation costs for new stores.

RUGGED RELIABILITY. Solid construction and heavy-duty components deliver the strength necessary for years of dependable service.

SAVINGS. The ultra high-speed extraction removes more moisture from loads. That means drying time can be cut by as much as 80% and owners save on utility costs. Faster customer turnover translates into your laundry being better equipped to flourish during peak usage periods.

PEACE OF MIND. A 3-year parts warranty (5-years on major components) is standard.

Simplifying Customer Satisfaction

EASY. Your customers want to get in and out quickly. Our simple controls, large door opening and ultra high-speed extraction make sure they do.

WASHABILITY. We lead the industry with more agitation during the wash cycle than any other brand. The result? Customers get great, clean results.

FLEXIBILITY. Clients love having the ability to tailor their wash process to the specific load. The clean designs of the Micro-20 and Sigma help them do it easily via nine preset cycle selections.

TIME SAVINGS. Our cycle time countdown helps customers prepare for the end of the cycle, which means they are in and out quicker.

CAPACITY. IPSO's HC line comes in 12, 18, 25 and 35 lb capacities. Installing a variety of models ensures customers find the perfect size machine to meet their needs.

A CLEAN APPROACH. We believe laundry is a pretty basic chore, so why complicate it for your clients with confusing controls and activations. IPSO helps you get customers in and out quicker — increasing their satisfaction and your profitability.

IHC012 - 12 lb
IHC018 - 18 lb
IHC025 - 25 lb
IHC035 - 35 lb

IHC Series Washer-Extractor Specifications

	IHC012		IHC018		IHC025		IHC035	
Capacity - lb (kg)	12 (5.4)		18 (8.2)		25 (11.3)		35 (15.9)	
Height - in (mm)	40 7/8" (1038)		40 9/16" (1031)		40 9/16" (1031)		47 5/16" (1202)
